SKILLS

Languages

C sharp | JavaScript | SQL

Web Development

React.js | HTML5 | CSS | Bootstrap | JQuery | PHP | .Net

Database Systems

MySQL | MongoDB

Tools

Github | Photoshop | Illustrator | Canva | Ubuntu

ACHIEVEMENTS

🏆 **Google Cloud Career Practitioner**
I learnt a lot about Generative AI, and successfully completed many quests and courses

❤ **Completed a diverse range of courses**
I have successfully completed a diverse range of courses, including Full Stack Development, Frontend Development, NDG Linux Unhatched, and SQL

❤ **Participation and engagement industry knowledge**
Unleashing Industry Insights

POSITION OF RESPONSIBILITIES

- **Virtual internship at Inamigos Foundation**
  Volunteer
- **National Service Scheme**
  NSS Volunteer
- **NCCIDS-23, MDU Rohtak**
  Participant

INTERESTS

I have been currently exploring frameworks.

Laravel | Symfony | Node.js | CodeIgniter | Generative AI
